Itinerary & Travel Information

DAY PRIOR » You may purchase last-minute retail items at Western River’s Moab Adventure Center located at 225 South Main Street (sunscreen, clothing items, hats, etc.)

DAYS ONE AND TWO » Check out of your hotel, and meet in the lobby of the Marriott SpringHill Suites Moab the morning of your trip, ready to depart. Refer to your guest confirmation for your specific departure time. You’ll take a short bus ride to the launch site for Cataract Canyon. After meeting your guides, you’ll set off onto the Colorado River. Leave all the busyness of life behind as you glide along smooth-flowing currents winding through Canyonlands National Park where sculpted sandstone, isolated buttes, and red rock castles offer unparalleled vistas for picture taking. Hike to ancient Indian ruins, pictographs and a magnificent outlook high above the mighty Colorado River.

DAY THREE » As the canyon deepens to 2,000 feet, the mood of the river changes drastically. Here you’ll experience over 30 thrilling whitewater rapids! In one of the Colorado River’s most notorious whitewater stretches called the “Big Drops,” your raft plunges 30 feet in a matter of minutes through rapids that can match those of the Grand Canyon in power and difficulty. Loosen your grip after Imperial Rapid and reminisce over your unbelievable journey. Relish one more night camping on the river’s edge. Watch the final rays of sun paint the canyon walls as your guides prepare delicious appetizers, barbeque dinner, and Dutch-oven dessert. Fall asleep under one of the world’s most astounding views of the night sky.

DAY FOUR » After a delicious breakfast, you’ll savor a soothing morning winding through towering, sun-drenched canyons as you make your way downriver towards Lake Powell. Enjoy a final lunch along the river before bidding farewell to the legendary Colorado River and your many new friends. Climb aboard a Cessna 5-7 seat aircraft and experience a spectacular 1-hour scenic return flight over Canyonlands National Park and back to Moab, Utah (arriving approximately 4:00 PM).

Note: This itinerary is provided as a sample. Daily activities and sights will vary based on weather conditions and guide preferences.
A Typical Day on the River

After meeting your guides you will be given a trip orientation that will include how and where you can sit on the rafts, how to hold on, and safety precautions while on the river.

A typical day will include rafting for a few hours at a time, stopping for scenic side-canyon hikes, bathroom breaks, lunch and possible swimming opportunities. Visiting with new-found friends and learning river lore and geology from our well-trained guides add to the enjoyment of each day.

After a full day of learning and fun we arrive in camp. Guests will be allowed to find their favorite campsite and then return to the rafts for the famous “fire line” - the way we load and unload rafts. Your help in passing the gear off the boat is greatly appreciated; however, if you have physical restrictions or limitations that would prohibit you from participating you are not required to help.

The first evening in camp, the guides will give a demonstration on how to easily assemble the cots and tents and will be available to help you if you need additional assistance. Western River provides cots, tents, sleeping bags, sheets, camp chair and water-proof gear bags for all guests. You’ll have no need to worry about bringing any of your own camping equipment.

While you relax at the river’s edge, your guides will prepare dinner. Every night is different, but the menu may include items such as grilled chicken breast, steak with sautéed onions, pasta or fresh fish.

At night, whether you choose to sleep in your tent or under the vast canopy of stars, the fresh night air and the rhythm of the river will lull you to sleep.

Each morning, your guides will prepare a delicious breakfast. You’ll have a chance to enjoy eating before returning to your campsite to take down your tent and cot and pack up your belongings in your dry bag. After bringing your bag down to the boats, guests participate in the fire line once again and you are off on another fun-filled day of adventure.

Rafting Trips vs. Other Vacations

The setting and pace of a rafting adventure gives you something you don’t find in other vacations. On a Western River Expedition, you will quickly discover why so many are calling this “the best vacation of their lives.” It’s the combination of drifting over tranquil pools of water under the shadows of towering rock formations, the exhilaration and thrill of rolling waves and crashing whitewater, the exploration of seldom-seen waterfalls and Native American history, the peaceful moments of reflection as you gaze up at the star-studded sky and the fresh feeling of renewal as the morning sun slowly filters through winding canyons. All this provides an indescribable sense of belonging. A sense of oneness with yourself and those around you. A sense of adventure, reflection and renewal. Come discover the difference.

"Our trip was amazing! I felt like a kid again. The guides were wonderful and really helped make the experience a great one. I would love to do this again!"
DONNA, New York City

"AMAZING!!! The trip itself was awesome beautiful scenery exciting rapids, awesome night skies...but really it was the people that made the trip what it was! Fellow rafters: an extraordinary group of folks from all over the US, we really melded into a river “family”! The crew Josh, Mark, Shad and John took such great care of all of us, were knowledgeable about the river, and were entertaining, fun, and funny!! This was definitely a trip to remember. I’m feeling a bit of post-river withdrawals, but thinking back on the great times we all shared, makes me smile all over again! If you’re considering doing a raft trip with Western, don’t hesitate!! You’ll be so glad you did!"
QUINN - Bend, Oregon
Rafts in Cataract Canyon

During May and June when water levels are the highest in Cataract Canyon, Western uses its patented J-Rig raft for the most secure, comfortable, and thrilling ride on the river. As water levels change in June and through July and August, we switch from 37’ J-Rig rafts to 18’ oar rigs, and smaller paddle rafts. These smaller boats make these later trips more suitable for teens or active adults looking for a more “hands-on” experience. Whether you travel aboard the larger rafts earlier in the season or the smaller rafts later in the season, the legendary whitewater in Cataract Canyon provides plenty of fun and excitement. Note: The date in June or July at which we switch to smaller boats is determined by water levels which are difficult to predict before spring.

Western’s J-Rig Raft

Named after Western’s founder, Jack Curry, the “J-Rig” is a patented craft offering the most flexible and comfortable ride on the river. If you’re a thrill seeker, you can sit up front where the waves hit hardest, or ride aft for more protection. There are plenty of calm sections along the river where you can move freely around the boat and trade seating positions throughout the trip.

Western’s Oar Rig

As the water levels change during the season, Western’s guides adeptly maneuver four to six passenger oar rigs. These specially designed 18-foot boats offer a comfortable ride and are “self-bailing” which means that any water that comes into the raft immediately flows back out. These boats carry the camping and cooking comforts necessary for nights along the Green or Colorado Rivers.

Western’s Paddle Raft

In conjunction with our Oar rigs, Western also offers paddleboats which provide “hands-on” excitement in conquering the waves with a spirited team of 6 to 8 rafters. Paddlers need not have any prior experience as Western’s guides will provide ample instruction and ensure everyone’s success.
Camping With Western River Expeditions

Whether you’re a veteran camper or experiencing sleeping in the outdoors for the first time, Western makes camping simple. All you need to worry about is packing your personal items in a soft-sided duffle bag. We’ll supply the rest:

» Comfortable cots make sleeping and relaxing on the river easy.
» Roomy tents are always available and easy to set up. You may be like many of our river guests who prefer to sleep under the vast canopy of stars. If you haven’t ever experienced camping in the desert you’ll be surprised at how dry and comfortable everything stays when sleeping under the stars.
» Freshly laundered sleeping bags and sheets provide warmth on cool evenings.
» Water-resistant bags protect your personal belongings from exposure to sand and water.
» A personal day-use bag keeps important items handy during the day.
» Camp chairs offer comfortable seating while in camp.
» A sturdy vinyl ground cloth keeps your gear and camping areas clean. (not shown above)

TOILET FACILITIES
Western uses a portable toilet and hand wash system that is set up each day in camp in a secluded location that assures privacy. The toilet is available from the time we pull into camp until we leave the following day. An orientation concerning everything from rapid safety to bathrooms will be given at the beginning of your trip.

“I still haven’t come down from this trip! It was amazing, beautiful, adventurous, fun, exciting & spiritual all at the same time. Having never camped a day in my adult life, I did things I never thought possible. From setting up tents to sleeping under the stars to washing in the river — it was incredible. I am so thankful we had the chance to experience the river.”

FLORENCE - New York
Physical Requirements for Rafting Trips

Our primary concern is participant safety. The nature of an outdoor adventure involves some physical exertion and also possible exposure to weather conditions that can fluctuate greatly due to heat, sun, wind, or rain. We do have experience accommodating persons with a wide range of physical challenges, disabilities, or medical and health conditions. However, we have found that for some people the fact of age, weight, lack of conditioning, heart or other disease, can endanger themselves, other guests or create additional hardship that diminishes the suitability or enjoyment of this type of vacation. Please consider these conditions in making your choice of river adventures. Please check with your physician prior to your trip if you have any medical or health condition or if you are taking any medications, and then notify us of how we can better help you with these conditions. In general, participants will need to meet the following physical requirements:

» Fit into a Type 5 Life Jacket (maximum chest size is 52”) required by the National Park Service
» Ability to securely grip ropes provided for handholds while running the rapids
» Enough agility to climb on and off the rafts—this could be as much as a 2-3 foot reach and often on wet and slippery surfaces
» Ability to navigate uneven terrain on hikes and in camp
» Carry your own dry bag which will include your 20-pound duffle bag along with the sleeping bag and ground cover we provide

Our principle objective is for you and your fellow guests to have an enjoyable and fulfilling experience. If you are concerned about any of these requirements, please call our friendly staff to further discuss which trip is right for you.

Our Participant Acknowledgement of Risks Form will more fully describe some of the inherent risks involved in these activities. We look forward to having you join us on the adventure of a lifetime.

Weather

We always hope for good weather but you should be prepared for the possibility of cooler weather and storms. This is applicable to all trips throughout the season. The following chart shows averages for the months of March through October. Temperatures and precipitation will vary. A rain storm or a cool front can happen anytime. The most amazing adventure of a lifetime. The majesty of the Canyon is beyond anything I could have imagined and the hiking into the side canyons awesome. Our guides Johnny, Wiley, Nate and Patrick are people I will never forget. They were entertaining, knowledgeable, funny, the best cooks ever and just wonderful, wonderful people. The team on our rig were fabulous as well, again amazing and wonderful people. Thank you all so much, I had so much fun going down the rapids my sides ached from laughing and I dream of the day I will be able to return. This trip was out of this world and beyond my dreams.

It is wise to come prepared for anything, but we realize there are weight and size limitations for packing. While we cannot predict it all, hopefully we’ve given you the proper insights and information to prepare you for the adventure of a lifetime!

Rain Gear vs. Paddle Gear

**Key Feature:** Easy to wear, versatile, best in warmer weather and rain.

- Keeps you relatively dry without the “sweat chamber effect”
- Blocks wind-chill after rapids
- Versatile purpose/easy to wear
- Best for rain, shields whitewater

**CONS:**
- Not waterproof during large rapids
- Getting cold can be a threat to fun

**Key Feature:** Neoprene rubber “gaskets” around wrists & neck. Best in cold weather & whitewater.

**PROS:**
- Nothing better for staying dry
- Ideal when weather remains cold
- Blocks water from all directions
- Best for whitewater

**CONS:**
- Hot & sweaty in warm weather
- Pullover style can be difficult
- Specialized purpose lacks versatility
