A Typical Day on the River

After meeting your guides you will be given a trip orientation that will include how and where you can sit on the rafts, how to hold on, and safety precautions while on the river.

A typical day will include rafting for a few hours at a time, stopping for scenic side-canyon hikes, bathroom breaks, lunch and possible swimming opportunities. Visiting with new-found friends and learning river lore and geology from our well-trained guides add to the enjoyment of each day.

After a full day of learning and fun we arrive in camp. Guests will be allowed to find their favorite campsite and then return to the rafts for the famous “fire line” - the way we load and unload rafts. Your help in passing the gear off the boat is greatly appreciated; however, if you have physical restrictions or limitations that would prohibit you from participating you are not required to help.

The first evening in camp, the guides will give a demonstration on how to easily assemble the cots and tents and will be available to help you if you need additional assistance. Western River provides cots, tents, sleeping bags, sheets, camp chairs and water-proof gear bags for all guests. You’ll have no need to worry about bringing any of your own camping equipment.

While you relax at the river’s edge, your guides will prepare dinner. Every night is different, but the menu may include items such as grilled chicken breast, steak with sautéed onions, pasta or fresh fish.

At night, whether you choose to sleep in your tent or under the vast canopy of stars, the fresh night air and the rhythm of the river will lull you to sleep.

Each morning, your guides will prepare a delicious breakfast. You’ll have a chance to enjoy eating before returning to your campsite to take down your tent and cot and pack up your belongings in your dry bag. After bringing your bag down to the boats, guests participate in the fire line once again and you are off on another fun-filled day of adventure.

Rafting Trips vs. Other Vacations

The setting and pace of a rafting adventure gives you something you don’t find in other vacations. On a Western River Expedition, you will quickly discover why so many are calling this “the best vacation of their lives.” It’s the combination of drifting over tranquil pools of water under the shadows of towering rock formations, the exhilaration and thrill of rolling waves and crashing whitewater, the exploration of seldom-seen waterfalls and Native American history, the peaceful moments of reflection as you gaze up at the star-studded sky and the fresh feeling of renewal as the morning sun slowly filters through winding canyons. All this provides an indescribable sense of belonging. A sense of oneness with yourself and those around you. A sense of adventure, reflection and renewal. Come discover the difference.
Rafts on the Green River

The family friendly rapids of the Green River afford the opportunity to paddle your own inflatable kayak in addition to riding aboard a comfortable oar rig piloted by Western’s skilled guides.

Western’s Oar Rig

Western’s guides adeptly maneuver four to six passenger oar rigs. These specially designed 18-foot boats offer a comfortable ride and are “self-bailing” which means that any water that comes into the raft immediately flows back out.

- Ice water and cold lemonade
- Guest seating
- First aid kit
- Guest gear bags
- Guide seat atop coolers
- Throw bag
- Oars
- Dry food storage box
- Personal storage boxes or bags
- Storage for tents, cots, kitchen stoves, tables
- “Flip Lines” designed to flip a boat over in the rare event of an overturn
- Bucket for boat rinsing...
  ...and water fighting

Western’s Inflatable Kayak

Also known as a “duckie” or “duck,” these two-person inflatable kayaks let you challenge the rapids on your own. They also provide a peaceful and relaxing way to recline and gaze up at the spectacular scenery in the calm stretches of river. If you’ve never paddled before, acquiring some basic paddle skills with the help of a guide takes only a few minutes. Inflatable kayaks are available throughout the trip and guests can take turns enjoying the ride.

- Comfortable backrests provide support while paddling
- Self-bailing floor instantly flushes out any water that comes into the boat
- Kayak paddles make maneuvering the boat easy

» Water-resistant bags protect your personal belongings from exposure to sand and water.

» Camp chairs offer comfortable seating while in camp.
» A sturdy vinyl ground cloth keeps your gear and camping areas clean. (not shown above)

TOILET FACILITIES

Western uses a portable toilet and hand wash system that is set up each day in camp in a secluded location that assures privacy. The toilet is available from the time we pull into camp until we leave the following day. An orientation concerning everything from rapid safety to bathrooms will be given at the beginning of your trip.

“I still haven’t come down from this trip! It was amazing, beautiful, adventurous, fun, exciting & spiritual all at the same time. Having never camped a day in my adult life, I did things I never thought possible. From setting up tents to sleeping under the stars to washing in the river - it was incredible. I am so thankful we had the chance to experience the river.”

**Physical Requirements for Rafting Trips**

Our primary concern is participant safety. The nature of an outdoor adventure involves some physical exertion and also possible exposure to weather conditions that can fluctuate greatly due to heat, sun, wind, or rain. We do have experience accommodating persons with a wide range of physical challenges, disabilities, or medical and health conditions. However, we have found that for some people the fact of age, weight, lack of conditioning, heart or other disease, can endanger themselves, other guests or create additional hardship that diminishes the suitability or enjoyment of this type of vacation. Please consider these conditions in making your choice of river adventures. Please check with your physician prior to your trip if you have any medical or health condition or if you are taking any medications, and then notify us of how we can better help you with these conditions. In general, participants will need to meet the following physical requirements:

- Fit into a Type 5 Life Jacket (maximum chest size is 52") required by the National Park Service
- Ability to securely grip ropes provided for handholds while running the rapids
- Enough agility to climb on and off the rafts—this could be as much as a 2-3 foot reach and often on wet and slippery surfaces
- Ability to navigate uneven terrain on hikes and in camp
- Carry your own dry bag which will include your 20-pound duffle bag along with the sleeping bag and ground cover we provide

Our principle objective is for you and your fellow guests to have an enjoyable and fulfilling experience. If you are concerned about any of these requirements, please call our friendly staff to further discuss which trip is right for you. Our Participant Acknowledgement of Risks Form will more fully describe some of the inherent risks involved in these activities. We look forward to having you join us on the adventure of a lifetime.

**Weather**

We always hope for good weather but you should be prepared for the possibility of cooler weather and storms. This is applicable to all trips throughout the season. The following chart shows averages for the months of March through October. Temperatures and precipitation will vary. A rain storm or a cool front can happen anytime. Packing List

**DUFFLE BAG**
All of your personal items should be packed into a soft-sided duffle bag approximately 12” x 13” x 24” in size. Due to aircraft weight allowances and raft space, please limit your gear to 20 pounds. This 20-pound maximum weight limit does not include beverages.

**DAY BAG**
Upon arrival to the river’s edge, you will be provided a water-resistant day bag (approximately 7” x 13”). In this day bag, you will want to put those items you wish to access during the day (rain gear, camera, medications, sun block, lip balm, river guidebook, etc). We recommend packing these items in a small sack or bag inside your duffle for easy transfer to your day bag at the launch site.

**GEAR BAG**
Also upon arrival at the launch site of your trip, you will receive a water-resistant gear bag. This bag will contain your sleeping bag, sheet, and ground tarp. Your personal gear bag will be available in camp each night of your trip.

While we cannot predict it all, hopefully we've given you the proper insights and information to prepare you for the adventure of a lifetime!

Rain Gear vs. Paddle Gear

Key Feature: Easy to wear, versatile, best in warmer weather and rain.

• Getting cold can be a threat to fun

Key Feature: Neoprene rubber “gaskets” around wrists & neck. Best in cold weather & whitewater.

• Blocks water from all directions
• Best for whitewater

CONS:
• Hot & sweaty in warm weather
• Pullover style can be difficult

This was an incredible trip for our family. We have not stopped talking about how much fun we had and how great the people were that we met. As great as everything was, truly the guides were the key to making this trip so fantastic. They were all absolutely amazing: they were not only expert rafters, but great cooks, funny, outgoing, kind, etc., etc. We all miss them. We have so many wonderful memories. This trip was a true gift. We will treasure it for the rest of our lives. Thank you for a family vacation of a lifetime.”
